4th Annual Meeting of the Oligonucleotide Therapeutics Society

Sponsored by the New York Academy of Sciences and the Oligonucleotide Therapeutics Society

This October, leading experts in oligonucleotide research come together at Harvard Medical School, for the Fourth Annual Meeting of the Oligonucleotide Therapeutic Society. Nobel Prize-winner Phillip A. Sharp delivers the keynote lecture of this 3.5-day meeting, which features presenters from various oligonucleotide-based disciplines exploring the latest developments in their fields. Don't miss this unique meeting, an exciting opportunity to foster strong synergies between different areas of oligonucleotide research.

Register Now for Early Bird Prices (See Right Hand Panel)
